## **SECTION 8.6 SPECIAL PERMITS**

### **8.6.1 DEFINITION**

Some uses may be allowable in a district if certain conditions are met. These uses cannot, however, be evaluated by use of the existing district regulations. Such uses will require a Special Use Permit as hereinto set forth.

### **8.6.2 MANUFACTURED HOMES**

Individual Manufactured Homes may be placed on lots zoned R-1 and R-2 upon application to and approval by the Warren Planning Commission through the granting of a Special Permit by the Warren Planning Commission.

- (a) Prior to approval of a Manufactured Home for installation in a R-1 or R-2 zone, the following conditions must be met:
  - (1) Land must be owned by person planning to live in the Home. Proof of ownership must be provided to the City Planning Commission. A deed of trust will suffice.
  - (2) Require a legal notice to be published 10 days prior to Planning Commission consideration. A petition must be submitted signed by all surrounding and adjoining property owners.
  - (3) The applicant shall notify all property owners within 200 feet of the subject property of the request and time and place of the hearing. Notification may be by a Notice of Request form furnished by the City or by certified mail. If certified mail is used, the receipt slip(s) shall be submitted to the Planning Commission at or before the hearing.
  - (4) Require a sign to be posted at the location to be considered for a Manufactured Home Special Permit for at least 10 days before the Planning Commission meeting. The sign must state that the property is being considered for a Manufactured Home Special Permit and should list the date, time and location of the Planning Commission meeting. The Building Official's phone number should also be listed.

- (5) The Planning Commission will consider the effect on surrounding property valuation during deliberations. Property devaluation can be sufficient cause to deny a conditional use permit.
- (6) The Manufactured Home must fit the lot and meet all City regulations. Size of Manufactured Home and size of lot must be listed on petition.
- (7) Manufactured Home must meet current Manufactured Home standards. The Manufactured Home must be at least 840 square feet.

(b) Upon approval by the Planning Commission to install a Manufactured Home, the following conditions must be met:

- (1) That the Manufactured Home shall meet the setback requirements for the zone in which it is located.
- (2) The Manufactured Home must be set up and anchored in accordance with the regulations of the Arkansas Manufactured Housing Commission, or the manufacturer's instructions.
- (3) The Manufactured Home must be continuously underpinned and the wheels removed. Underpinning must be of a material approved by the Planning Commission.
- (4) Under no circumstances can the Manufactured Home be used for rental purposes.

(3) **Hardship Cases**

- (a) Where a residential structure has been built on a lot in an R-1 or R-2 District, the Planning Commission may, on application of owner of such lot, permit the parking of one Manufactured Home in the rear yard of such lot, providing the Commission makes a finding to the effect that the occupant or proposed occupant of said Manufactured Home would suffer a medical hardship, if the Manufactured Home were to be located in a Manufactured Home park rather than on said lot. Such use shall be permitted subject to the same regulations as stated above.
- (b) Hardships as described above will also be allowed in all Commercial zones subject to all of the same conditions and requirements.

(4) Maintain existing regulations for Manufactured Home parks.

(5) Upon the second year anniversary of a Manufactured Home conditional use permit and every second year thereafter, the property owner that was granted the conditional use permit must appear before the Planning Commission to renew the conditional use permit.
